Fix a Leak Prizes

Participants that have submitted a FULLY COMPLETED WORKSHEET will be entered to win one of several **\$50 gift card** from a local gardening business.

Check your Utility Bill

Get to know your utility bill to help identify a potential water leak. Check out your water usage from January or February as a good gauge of a “typical” month of water usage for your home. Also look for a huge increase in water usage compared to your previous month’s usage. (An average customer in Charlottesville uses about 400 cubic feet or 3,000 gallons of water per month).

*If you do not receive a water bill or do not have access to this information, you can still get an estimation on your water usage by using the **Home Water Works Calculator** (home-water-works.org).*

Got a Water Leak?

Some leaks are a simple fix- a worn toilet flapper, loose pipe connection, or showerhead with stray spray. But you may want to consult a licensed plumber to stop your running toilet, broken sprinkler, water heater drips, or malfunctioning water supply lines. Don't wait to fix your leak- Charlottesville.gov/FixALeak.
