If not actively employed in a career fire department or not in possession of a CPAT certificate (not older than 18 months), you will be required to participate in the CAT. The Charlottesville Fire Department will utilize a candidate ability test (CAT) to assess a non-certified candidate’s physical abilities to complete essential job functions effectively and safely.

All candidates are invited to participate in one of the CAT practice sessions. Available dates and times will be sent to candidates in a separate email with instructions for how to register for a practice session.

Candidates will be given the opportunity to test during their practice session if they so desire. If a candidate passes the CAT during one of the practice sessions they do not have to return for the final CAT testing opportunity. Candidates must sign a waiver form to participate in the CAT.

Information about the CAT will be sent to candidates by email upon receipt of a completed application. Please ensure that the email entered in the application is checked regularly.

**STEP 5: Physical Ability Test – TBD**

All candidates are strongly encouraged to take advantage of one of the practice session dates. Instructions for how to register for the test session will be included in the email instructions for the practice sessions.

Those candidates who complete the CAT will be considered to proceed to the next step of the hiring process.
