

\$100

Towards the purchase and installation of a programmable thermostat

If you are heating with natural gas, you can take advantage of this energy saving offer. A programmable thermostat can turn down the heat during the many

hours you're at work or asleep and make sure your home is at a comfortable temperature when you're there to enjoy it.

TO QUALIFY FOR THE REBATE, YOU MUST:

- ✓ Be the home owner/rental property owner and be in good credit standing with the City of Charlottesville.
- ✓ Be a City of Charlottesville gas customer and use natural gas for home heating.
- ✓ Customer must purchase and install this qualifying device by June 30, 2022.
- ✓ Provide us with a receipt for the thermostat and/or installation along with completed rebate form.
- ✓ Only one programmable thermostat rebate per address.
- ✓ New construction (whether it be commercial residential development projects, e.g. subdivisions) installations **do not qualify**.
- ✓ Rebate programs are available on a first-come, first-serve basis. Funding and guidelines for these programs may be changed or discontinued at any time without notice.

The rebate can be used to cover the cost of the thermostat and/or the installation cost **up to \$100**
